“ Greetings. I worked with Dennis at Armstrong. He was always a fun and reliable co-worker. Smart guy and very capable. I appreciated associating with him. I will never forget the time when a lab report was issues stating he had leukemia and State Police found him fishing and go him to the hospital. That was a scary time, but he pulled through it and went on to a quite full beneficial life with family. We are grateful for his life and are sad to learn about his passing.
